Creative PORTFOLIO

I am an architect with a passion for creativity. From a young age, I have been drawing and painting, and these artistic pursuits have now evolved into creating children's books and comics. I not only imagine and write my own stories but also illustrate them. I welcome collaborations in illustration and other creative fields, where we can bring ideas to life together. Check out samples of my work!

UPCOMING BOOK SERIES

AUNT PATI

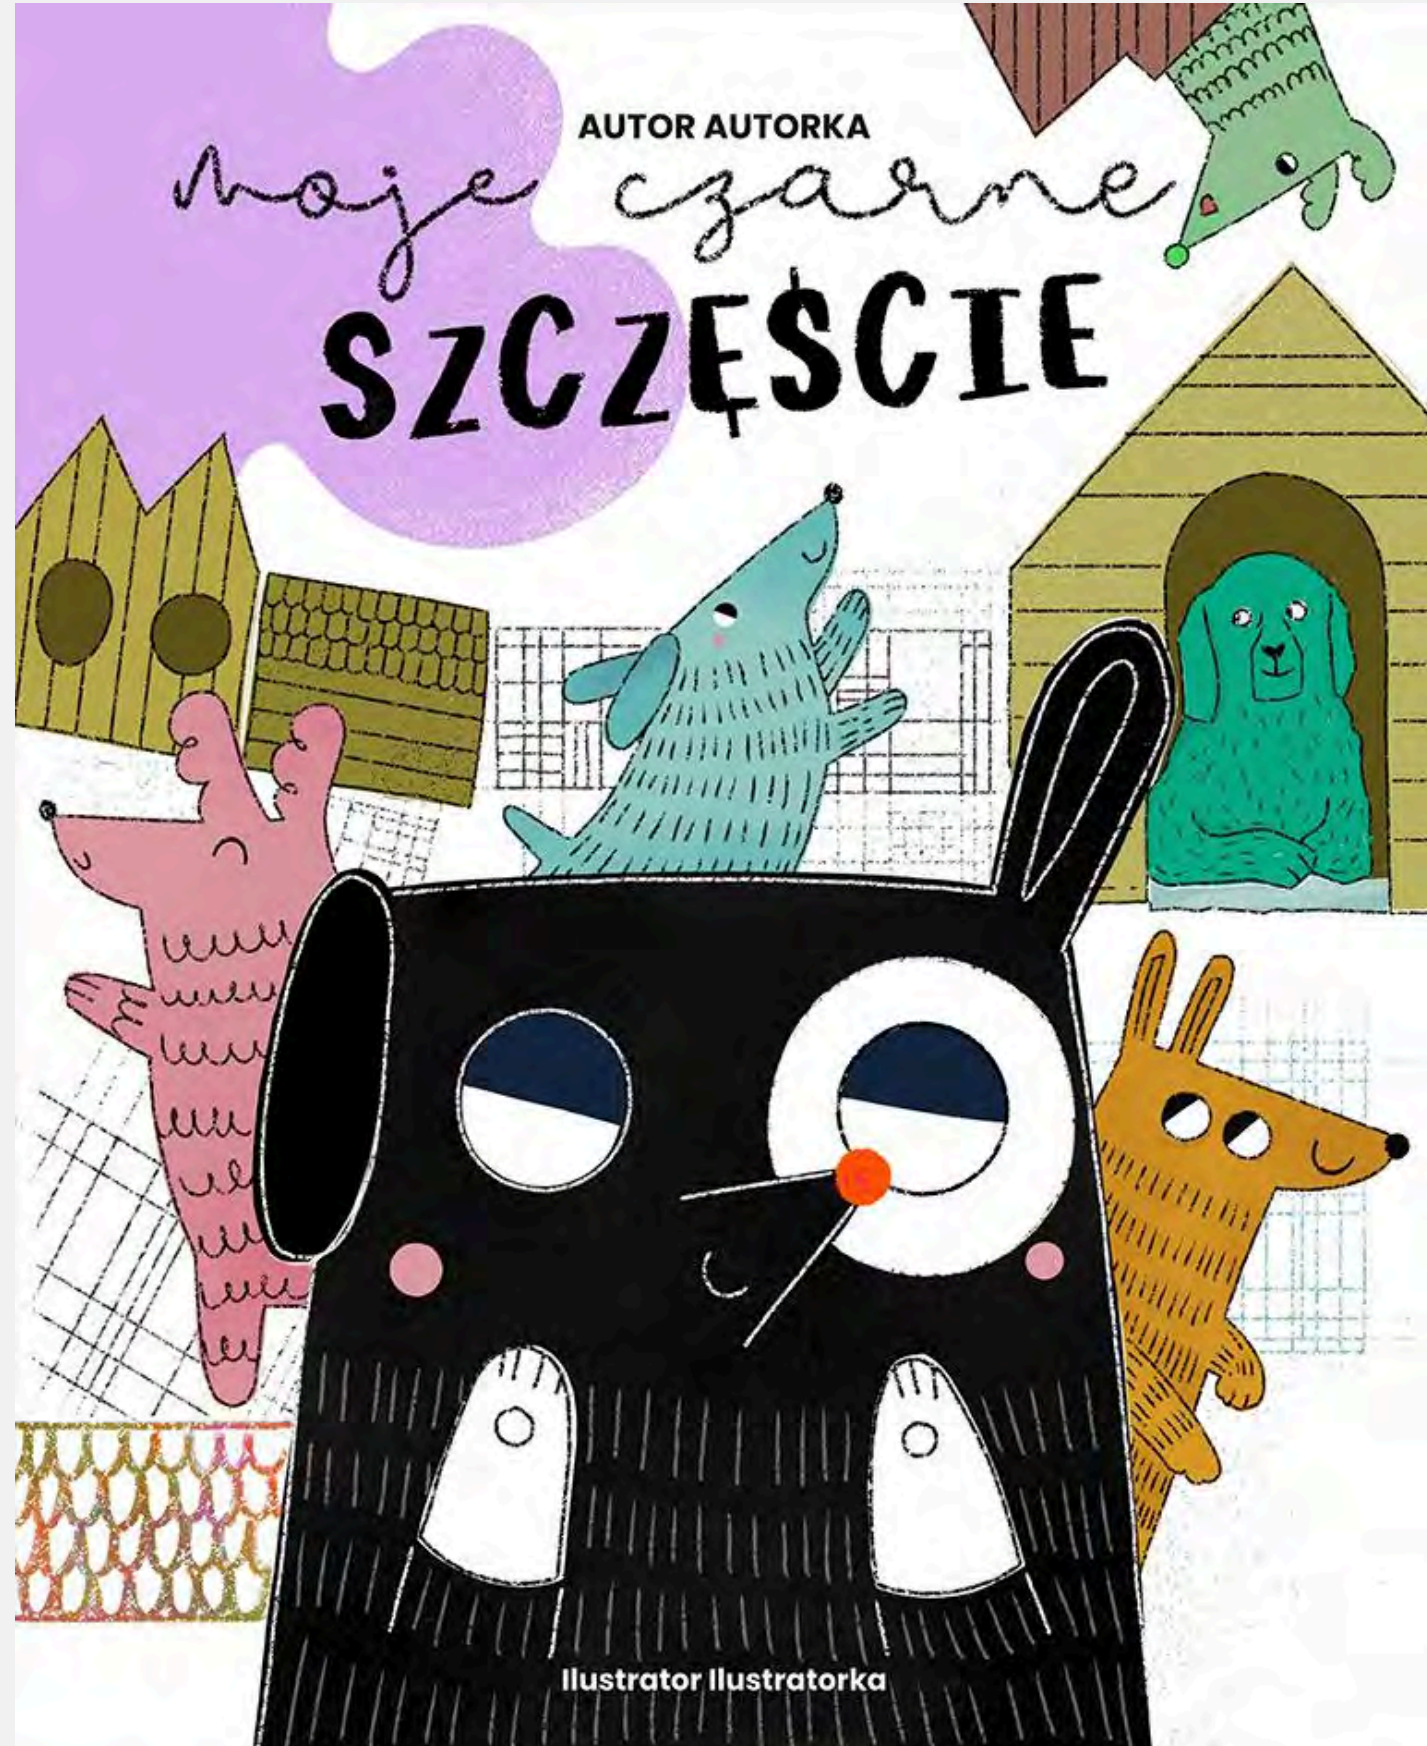

Inspired by my twin sister Patrycja, whose unique approach to life—filled with creativity and humor—has profoundly influenced my son, Patryk, the "Auntie Pati" series captures her extraordinary world in stories that entertain, educate, and open minds.

Designed for children aged 5–8, yet equally enjoyable for older readers, this series is a tender and humorous guide to the modern world. It brings a fresh perspective to contemporary challenges, moving beyond traditional lessons to tackle relevant topics like the role of social media in family life, managing sensory overload and the abundance of plastic toys, and the freedom of self-expression through art. "Auntie Pati" is a breath of fresh air in children's literature, bridging timeless emotional lessons with an up-to-date and relatable approach to life's complexities.

A Day in Ecosia is a delightful book that teaches children about nature, wildlife, and an eco-friendly lifestyle in a light-hearted manner. Originally intended to be a picture book, the story naturally developed as I created the illustrations. I wanted to depict the life of a family of forest creatures living in perfect harmony with nature, illustrating how peaceful and natural this coexistence can be for all of us. My goal is to teach children to love our planet and take care of it, showing them that their everyday choices matter. They have the power to change the future!

W zasadzie wszystkie ciuchy kupował z drugiej ręki, więc nie obawiał się zbyt dużej ilości chemikaliów, które wyprał już poprzedni właściciel, ale było dla niego istotne, czy da się daną rzecz poddać recyklingowi. Większość sztucznych włókien, szczególnie jeśli pomieszane są ze sobą, ich różne rodzaje - kompletnie nie nadaje się do ponownego wykorzystania. Jak ognia unikał poliestru - wszechobecnego źródła mikroplastiku. Nośił głównie dzinsy i białe albo czarne koszulki. Względnie szare bluzy. Dlatego nie mógł pojąć co przychodzi w paczkach, które codziennie dostarcza do Kingi. Oczywiście ponad połowa z nich to zwroty, ale nawet jeśli zostaje jedna trzecia, to dalej można by było ubrać od stóp do głów całą drużynę siatkarek przez okrągły rok. Nigdy jednak nie odważył się o to zapytać. Głównie ze strachu, że musiałby słuchać wybitnie długiej i okraszanej pokazem mody odpowiedzi. Już wystarczająco krepujące było to, że prosiła go, żeby towarzyszył jej w otwieraniu paczek. I w zachwycaaniu się ich zawartością.

- Co myślisz o tej bluzce? Dotknij! Obawiam się, że będzie się 'gęglić'...Mmm, ale krój ma doskonały! Kinga atakowała go pytaniami zaraz po wyrwaniu mu z rąk i rozpakowaniu przyniesionych pakunków. Zanim Tomek zdążył przejść do

porządku dziennego nad słowem 'gęglić', spadła już na niego grad kolejnych dziewczęcych problemów. Prawie zawsze padały też pytania, które sprawiały, że Tomkowi włosy stawały dęba, mianowicie: - Jak w tym wyglądam? Czy powinnam zamówić większy rozmiar? Chłopak wiedział, że na tak zadane pytanie po prostu nie ma dobrej odpowiedzi, a każda próba dyskusji jest jak stąpienie po cienkim lodzie. Na szczęście Kinga zazwyczaj odpowiadała sobie sama. Tomek kompletnie nie rozumiał po co Kinga tyle ubrań, przecież ma pralkę i może zakładać je częściej niż jeden raz. W swojej szafie miał tylko praktyczne i wygodne rzeczy. Jedyнным szaleństwem były czerwone kalosze! Akurat takie były na przeziemie, a jemu kolor był raczej obojętny. Za to w szafie Kingi wszelkich szaleństw było od groma! Część rzeczy ciężko mu było nawet zidentyfikować, nie miał pomysłu do czego służą błyszczące, cekinowe sukienki, falbaniaste narzutki i buty na niebotycznym obcasie.

VIVID, UNFORGETTABLE
CHARACTERS

Yes and No sat on a bench, swinging their legs back and forth. Yes sang beautifully, her voice light and cheerful. Suddenly, a frog hopped by, croaking a happy tune, despite his funny voice. "Look at that frog!" Yes exclaimed. "Even with a croaky voice, he's so happy!" No watched in amazement as the frog sang along, enjoying himself without a care.

Page 11

At first, No was surprised that anyone could sing like that, but she soon realized the frog was simply happy to be himself. She didn't even ask Yes how he could be so cheerful despite not having an ideal voice. Slowly, she began to understand that true happiness comes from being content with who you are, flaws and all.

Page 12

In the land of Yes, happiness blossomed. Yes and No became not just cousins, but best friends, exploring their worlds together and inspiring the inhabitants to find joy in life. They discovered that with a little optimism, anything was possible. The lands of Yes and No transformed into one place where everyone could find happiness in their own way, thanks to Yes and No's journey.

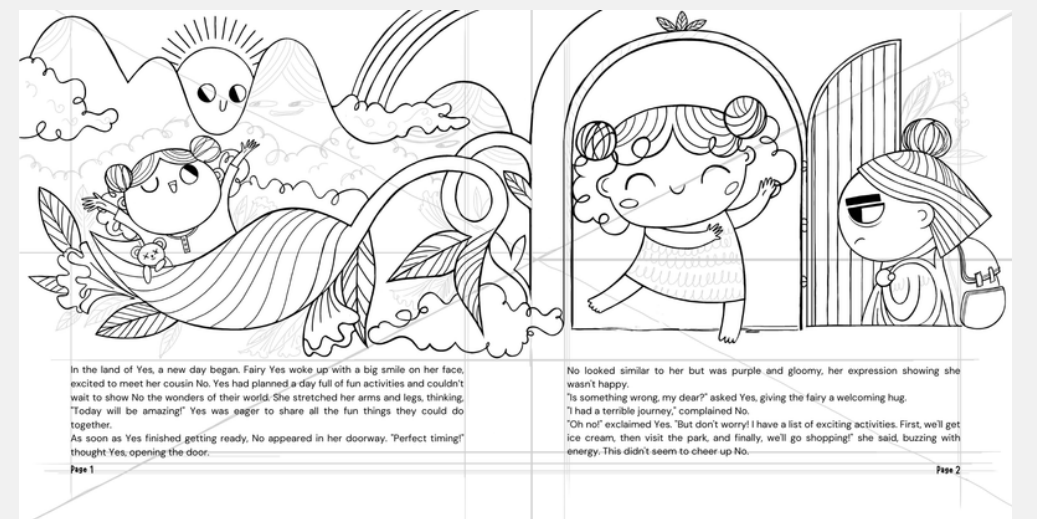

Page 23

P.s.: If this book ever gets published, I dedicate it to my twin sister, who is the inspiration for the character Yes. You can probably guess who No is based on. :) P.p.s.: If the children's interests are different, an alternative version of this story can be created by changing the fairies to aliens and the land of Yes and No to the planets Yes and No.

OPTIMISM BOOST

FUNNY AND COMFORTING+FAIRIES!

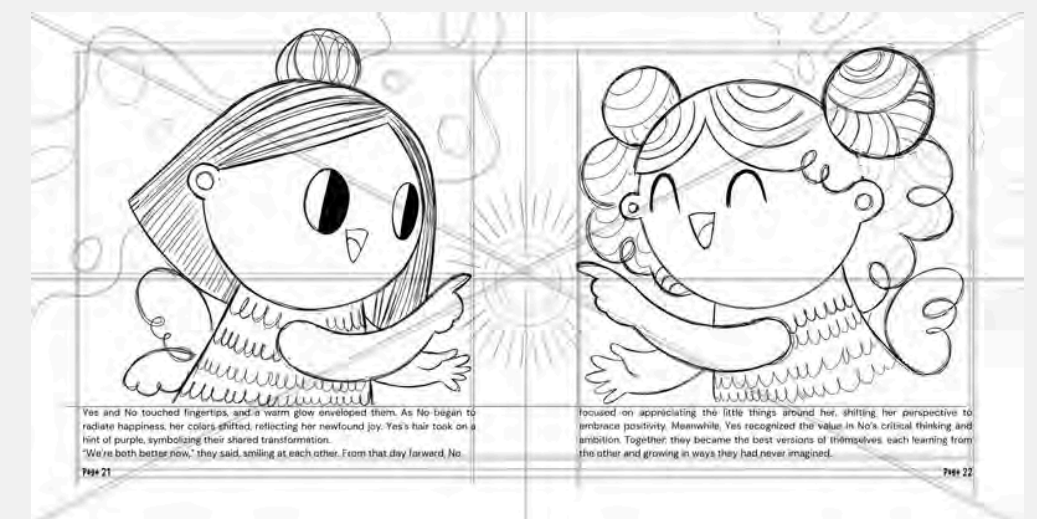

In the land of Yes, a new day began. Fairy Yes woke up with a big smile on her face, excited to meet her cousin No. Yes had planned a day full of fun activities and couldn't wait to show No the wonders of their world. She stretched her arms and legs, thinking, "Today will be amazing!" Yes was eager to share all the fun things they could do together. As soon as Yes finished getting ready, No appeared in her doorway. "Perfect timing!" thought Yes, opening the door.

Page 1

No looked similar to her but was purple and gloomy, her expression showing she wasn't happy. "Is something wrong, my dear?" asked Yes, giving the fairy a welcoming hug. "I had a terrible journey," complained No. "Oh no!" exclaimed Yes. "But don't worry! I have a list of exciting activities. First, we'll get ice cream, then visit the park, and finally, we'll go shopping!" she said, buzzing with energy. This didn't seem to cheer up No.

Page 2

Yes and No touched fingertips, and a warm glow enveloped them. As No began to radiate happiness, her colors shifted, reflecting her newfound joy. Yes's hair took on a hint of purple, symbolizing their shared transformation. "We're both better now," they said, smiling at each other. From that day forward, No

Page 21

focused on appreciating the little things around her, shifting her perspective to embrace positivity. Meanwhile, Yes recognized the value in No's critical thinking and ambition. Together, they became the best versions of themselves, each learning from the other and growing in ways they had never imagined.

INNOVATIVE IDEAS TO ATTRACT AND DEVELOP YOUNG TALENTS IN SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS

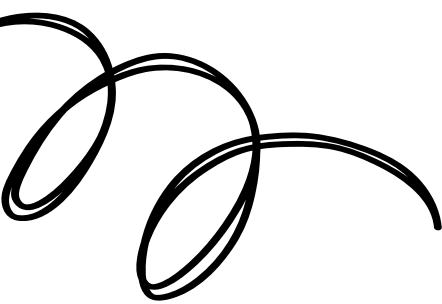

Forging a Path **TO** **MY OWN BRAND**

I founded Petitedominance in 2020, a brand specializing in high-quality coloring and activity books. Our foundation is built on aesthetics and craftsmanship, recognizing the vital role of art in early development.

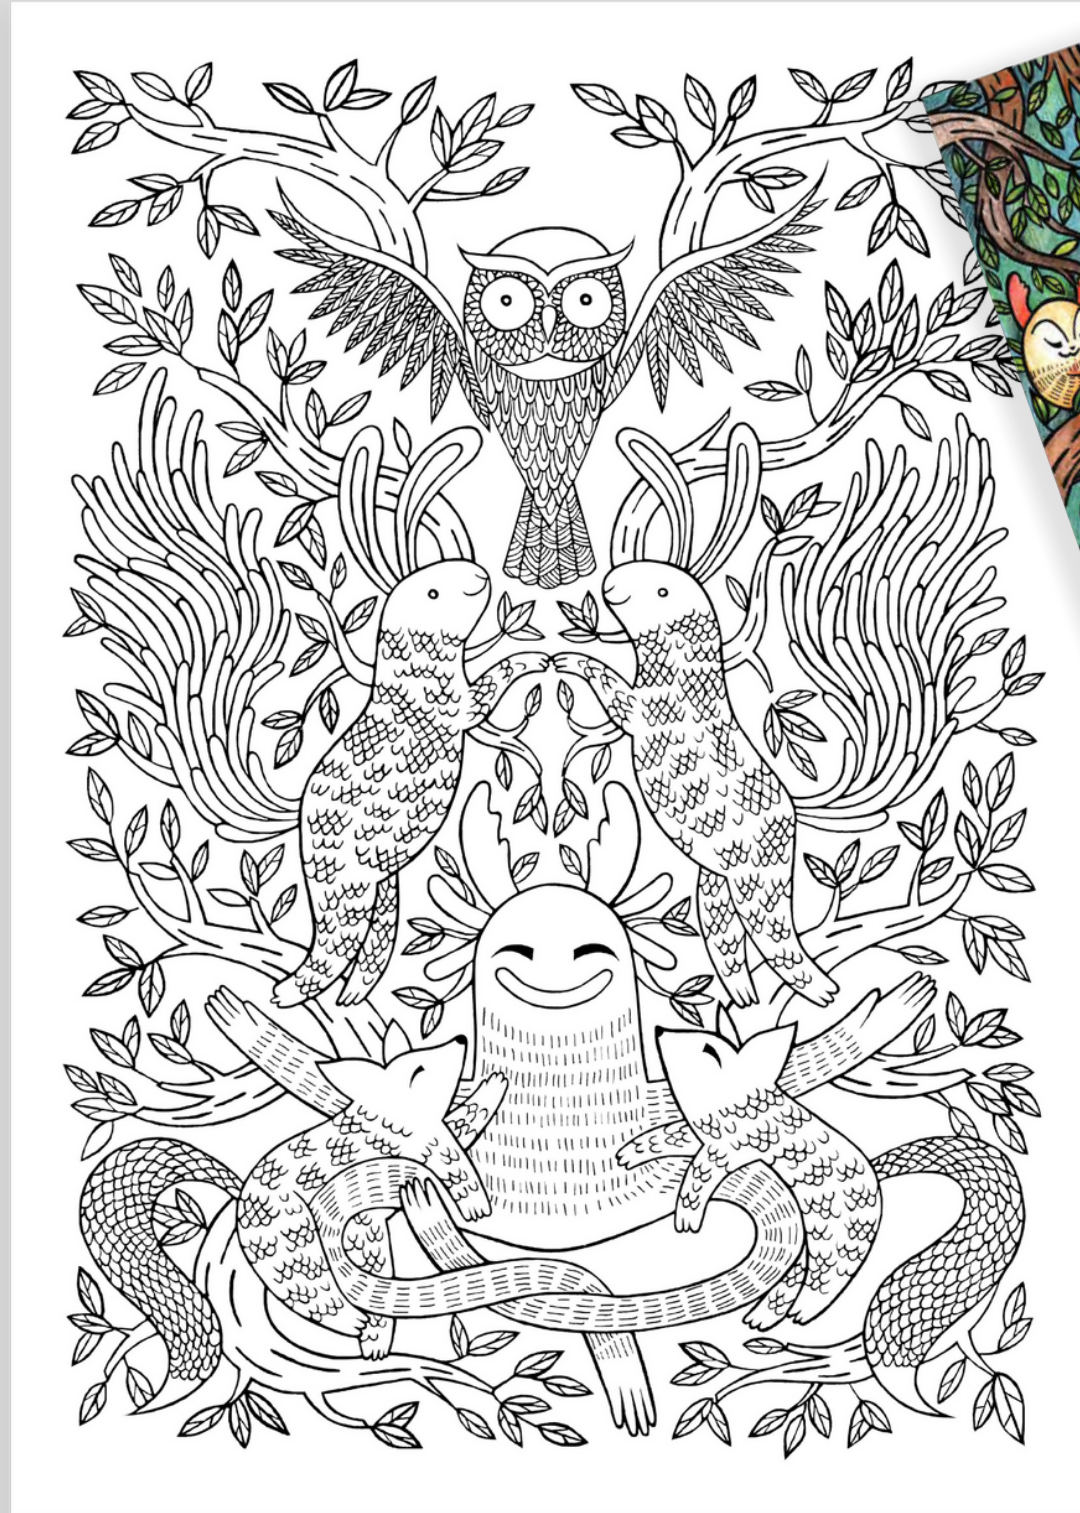

We believe that every child possesses unique artistic potential, and it's crucial to provide a nurturing environment that fosters creativity, especially during their formative years. By surrounding children with art and thoughtfully designed products, we can cultivate their burgeoning aesthetic sense.

What sets our coloring pages apart? I prioritize authenticity over mass production. Each illustration is hand-drawn, ensuring meticulous attention to detail and a personal touch. In an increasingly digital world, our commitment to natural artistry truly stands out.

Our products are designed not only to inspire creativity but also to enhance well-being. Engaging in artistic activities has been shown to have beneficial effects on mental health, making our offerings a valuable addition to any household.
